

What's Happening Wednesday

Kansas Immunization Program

VFC Consultant on Call - The Consultant on call for next week is Dena Rueb at Dena.Rueb@ks.gov . The Consultant on call can be reached at 785-296-5592.

March 29, 2017

Chief Chat- We are actively seeking candidates for the Vaccines for Children (VFC) Program Manager.

The ideal VFC Manager will be enthusiastic about leading a team of passionate public health nurses and working with local providers to assure the safe immunization of Kansas children. We are looking for a professional (RN or LPN preferred) who enjoys working with colleagues toward a common goal of assuring proper childhood and adolescent immunization coverage. Experienced leaders interested in an opportunity to work with a dynamic team of professionals who are excited about protecting the public through proper immunization practices should consider applying. This position will be based in Topeka. Please see the full posting and instructions for applying online using [position requisition 185494](#).

DOB	Age	History of Varicella?	Date of Varicella
02/12/2005	12Y 1M 17D	NO	MM/DD/YYYY

☒ Recommended Immunizations for today, 3/29/2017 (12Y 1M 17D)

Vaccine

Tdap
HepA, Ped/Adol
HepB, Ped/Adol
MMR
Polio, IPV
VAR (Varivax)
Influenza IIV4 MDV
MCV4 (Menactra)
HPV9 (Gardasil-9)

We are pleased to announce KSWebIZ has

been updated to reflect the new **ACIP HPV 2**-dose recommendations. The update to KSWebIZ will only impact patient vaccine recommendations. None of the KSWebIZ reports that account for immunization rates, missed opportunities, or reminder/recalls have been updated at this time.

To see the new ACIP HPV 2 dose recommendations you do not need to make any changes to your account. The changes have automatically been put in place and will reflect where you currently find ACIP recommended vaccines.

As always, if you have any questions about KSWebIZ, please contact the Kansas Immunization Registry Help Desk (1-877-296-0464 or kdhe.immunizationregistry@ks.gov) and someone will be happy to assist you.

We have finalized speakers and presenters for the annual Kansas immunization conference and final touches are being placed on the registration brochure now to go to the printer. Be on the lookout for these to arrive in the next two to three weeks.

Phil Griffin

Deputy Director, Bureau of Disease Control and Prevention

Mumps In Kansas – 95 Cases Reported in Multiple Counties

As of March 25, 2017, 95 mumps cases have been reported in Kansas throughout multiple counties in the state. The Kansas Department of Health and Environment and affected local health departments are working closely together to identify cases and implement appropriate isolation and exclusions policies to prevent further spread of mumps. Mumps cases have been reported in the following counties: Atchison, Barton, Brown, Crawford, Douglas, Ellis, Finney, Franklin, Johnson, Leavenworth, Marshall, Miami, Montgomery, Nemaha, Riley, Rooks, Thomas, Trego, and Wyandotte.

Mumps is a contagious disease caused by a virus and typically starts with a few days of fever, headache, muscle aches, tiredness and loss of appetite, followed by swollen salivary glands. Please be mindful of the signs and symptoms of mumps, have appropriate laboratory testing completed when indicated, and **immediately report any suspicion of mumps to KDHE at 1-877-427-7317.**

For updated case counts and more information about mumps, please visit:
<http://www.kdheks.gov/epi/mumps.htm>.

DID YOU KNOW?

Did you know that the 13th Edition Epidemiology and Prevention of Vaccine-Preventable Diseases, a.k.a the “Pink Book” can help you decipher foreign immunization records? Appendix B offers vaccines listed by language to help you in determining which vaccines a patient has received.

<https://www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/b/foreign-products-tables.pdf>

VFC Question of the Week-

Q: An adult was in our clinic to receive a TDaP, but our staff member accidentally gave a DTaP. Do we need to now give a TDaP?

A: If a DTaP is given by mistake to a patient 7 years or older, the DTaP can be counted as a valid dose and will count toward the one-time TDaP dose.

Influenza Like Illness Surveillance – Activity Continues to Decrease

During the week ending March 18, 2017, influenza-like illness (ILI) activity continued to decrease in Kansas. ILI is defined as a fever ($\geq 100^{\circ}\text{F}$) and the presence of a cough and/or sore throat. ILINet sites reported 4.3% of visits were due to ILI, a decrease from the previous week of 4.5%. These sites are also asked to submit up to two specimens for testing at the Kansas Health and Environmental Laboratories (KHEL). These specimens help monitor what types of influenza are circulating in Kansas. KHEL has reported 127 positive influenza specimens (114 A/H3, 4 A/H1, 2 A (not subtyped), and 7 influenza B). Please remember outbreaks of any disease including influenza are reportable to KDHE. For more information on influenza surveillance, visit <http://www.kdheks.gov/flu/surveillance.htm>.

Seasonal Influenza Vaccine Update -

The chart below shows the current percentage of the Kansas allocated influenza vaccine which has been delivered to the McKesson distribution center. Kansas Provider orders have and will continue to be filled according to the stock available to us through McKesson and based upon each provider's seasonal order.

At the current time, all vaccines have been received and are available to order.

KSWEBIZ Trainings— This week's trainings highlighted in yellow below

Aggregate Inventory Training— **Mondays at 1 p.m., First Friday at 10:30 a.m.**

The Aggregate Inventory Training occurs the first Friday of every month from 10:30 -11:30 a.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ for Aggregate Users. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Aggregate Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/6598705111102500354>

Register now for the date that works best for you!

Direct Entry Inventory Training— **Tuesdays at 1 p.m., First Friday at 12 p.m.**

The Direct Entry Inventory Training occurs the first Friday of every month from 12 -1 p.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Direct Entry Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/4121654947304535298>

Register now for the date that works best for you!

New User Training— **Thursdays at 2 p.m., Second Friday at 12 p.m.**

The New User Training occurs the second Friday of every month from 12 -1 p.m. This basic training is for new KSWebIZ users, or people who would like a simplified refresher training on how to use KSWebIZ. We will be going over log-in, adding history, administering vaccinations, printing consents and pink cards. If you are a new user, have a new token, or recently had a token transferred to you please take the time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/1572841858584797442>

School Module Training- **Third Friday at 9 a.m.**

The School Module Training occurs the third Friday of every month from 9 - 10 a.m. This basic training is for new KSWebIZ school module users, or people who would like a simplified refresher training. **Please note:** this call is for KSWebIZ School Module Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/8422671756415350273>

Register now for the date that works best for you!

Reports Training- **Fourth Friday at 12 p.m.**

The Reports Training occurs the fourth Friday of every month from 12 - 1 p.m. This training is for KSWebIZ users who are wanting to learn more about the KSWebIZ Reports. We will be going over the various reporting sections and how to generate reports within these sections. We hope you have time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/568840407867357186>

NOTE: There have been additional trainings scheduled during the week for New User Training, Direct Inventory Training and Aggregate Inventory Training. The new times can be found above and when you register and select a specific training time. If these times do not work with your schedule or you have additional training needs please reach out to the IIS trainer michael.sims@ks.gov or 785-296-0687

Vaccine Information Statements–

Anthrax	3/10/10	MMR	4/20/12
Chickenpox	3/13/08	Tdap	2/24/15
DTaP/DT/DTP	5/17/07	MMRV	5/21/10
Hepatitis A	7/20/16	Multi-vaccine	11/05/15
Hepatitis B	7/20/16	PCV 13	11/05/15
Hib	4/2/15	PPSV	4/24/15
HPV9	12/2/16	Polio	7/20/16
HPV4 (Gardasil)	5/17/13	Rabies	10/6/09
HPV2 (Cervarix)	5/03/11	Rotavirus	4/15/15
Influenza (LAIV4)	8/07/15	Shingles	10/6/09
Influenza (IIV3 or IIV4)	8/07/15	Smallpox	10/01/09
Japan. enceph.	1/24/14	Td	2/24/15
MCV4/MPSV4	3/31/16	Typhoid	5/29/12
MenB	8/09/16	Yellow fever	3/30/11

Vaccine Redistribution

Please email any additions or changes to be made on the Vaccine Redistribution lists with subject matter “Redistribution” to kdhe.vaccine@ks.gov or call toll free at 1-877-296-0464 http://www.kdheks.gov/immunize/vaccine_redistribution.htm

REMINDERS: Providers may place the excess doses on the KIP Redistribution list if:

- 1) The vaccine has a minimum of 90 days and a maximum of 365 days before the vaccine's expiration date;
- 2) The ordering provider is responsible for any doses which expire on the redistribution list that have not been accepted for transfer to another VFC provider;
- 3) Providers accepting vaccine from the redistribution list are responsible for using the doses once they are transferred. KIP encourages providers to accept only doses they can administer before the expiration date;
- 4) The transferring and receiving provider will document these doses on their monthly MIR/reconciliation reports as transferred vaccines.
- 5) Once vaccine is transferred please contact KIP to let us know so we can adjust the redistribution list by either deleting the line or by reducing the amount of doses.
- 6) All vaccines must be in full boxes
- 7) The KIP nurse consultant who is on call must be contacted prior to transferring vaccine
- 8) Providers are responsible for keeping KIP notified if there is a change in amount of doses available for redistribution.
- 9) When placing an order, you may be contacted if the vaccine you are trying to order is on the redistribution list.
- 10) Varicella and Proquad, will not be posted on the VFC or Private Vaccine Redistribution List. Frozen Varivax vaccines are very intolerant to out of range temperatures. To prevent potential vaccine waste the Kansas immunization Program requests that Varivax containing vaccines not be transferred to other providers. Questions regarding transporting vaccine call 877-296-0464 to request assistance.
